

2021 Virtual Advanced Practice Provider Preceptorship Program

The Crohn's & Colitis Foundation's **Advanced Practice Provider Preceptorship** program, designed for NPs, PAs, and CNSs who have not had extensive training or are new to the field of IBD, offers up to five days of a virtual educational experience in the fall of 2021 at an adult or pediatric IBD Center of Excellence in the United States. Our goal is to **provide the practitioner with the knowledge, confidence, and skills** needed to provide quality IBD patient care, utilizing current practice guidelines and available research.

- Curriculum topics of diagnosis, medical and surgical management, psychosocial, nutrition, and much more
- Personalized mentorship and group discussions
- Multidisciplinary faculty presentations
- Education resources including reading lists, online modules, and recordings
- Free registration to the Foundation's annual professional conference

Participants say:

*"This week allowed me to delve into evidence-based practice guidelines and gave me **the tools necessary to diagnose and treat IBD.**"—Jessica Ruiseco, NP*

*"Most valuable aspect of this is the **mentorship.**"—Arielle Smith, PA*

Space is limited! Deadline for application: June 14, 2021
