

Camp Oasis 2022 Site Specific FAQs Wisconsin

Overview:

The Crohn's & Colitis Foundation's top priority is the health and safety of our campers, volunteers and staff. After careful review of national guidelines concerning COVID-19, the Foundation has decided to resume residential Camp Oasis sessions in 2022. With the guidance of our Medical Advisory Task Force, we have built a strong framework of precautions to provide the safest possible environment for all. To review our general health & safety plans, see our [Health & Safety FAQ 2022](#).

While we work closely with our host sites to follow best practices and safety guidelines, there are many nuances to each camp. To better serve our camp families and volunteers, we have created this site-specific FAQ to review any additional precautions or potential risks they may want to consider. If you have any concerns, please feel free to reach out to us at camp@crohnscolitisfoundation.org

Please note that Camp Oasis leadership will be meeting in March and April to discuss additional precautions that are specific to this site, such as activities, check-in processes, etc. We will update these FAQs appropriately as those decisions are made.

Host Site: Lutherdale

States where campers come from: IL, WI

What is the COVID-19 vaccination policy for this host site's employees? Host site is currently requiring vaccinations for all employees.

Will all bunk counselors be vaccinated? Yes. Camp Oasis provides all bunk counselors at this location. Camp Oasis requires all counselors be fully vaccinated

Will all program staff be vaccinated? Yes, all program staff will be vaccinated.

Will host site employees be tested prior to Camp Oasis arrival? If so, please explain. Yes, all host site employees will receive on-site rapid tests prior to Camp Oasis arrival.

What masking policies will be followed by host site employees? Host site employees will be required to follow Camp Oasis masking policies. Staff must wear a mask in the following situations:

- A. Indoors, except while actively eating or drinking
- B. Outdoors when interacting with Camp Oasis participants and social distancing is not feasible.

Will there be another group at this camp site at the same time as Camp Oasis? At this time, there is not another group that is planned during the same time as Camp Oasis.

What measures will be in place in the dining hall? The host site currently plans to serve cafeteria-style. One cabin will be allowed in the food line at a time to minimize interaction between cabin groups. All kitchen staff will be required to wear masks. Outdoor dining spaces are available as well, which may be considered, pending weather.

Will group transportation be offered for this camp? Group transportation is not offered for this location.
