

The Congressional Crohn's and Colitis Caucus is a bi-partisan group of Members of Congress dedicated to educating their colleagues and the American public about Crohn's disease and ulcerative colitis, collectively known as inflammatory bowel diseases (IBD). The Caucus works together to raise awareness, support IBD medical research, and protect patient access to care. The Caucus also works to assert the patient perspective in legislative and regulatory decision-making. Join the Caucus to support the millions of American living with IBD!
