# Crohn’s & Colitis Foundation’s Camp Oasis

Dear @Name@,

Your healthcare team has discussed the opportunity for your child to attend summer camp for children with inflammatory bowel disease.  The Crohn’s & Colitis Foundation’s Camp Oasis provides a safe environment where friendships ignite, confidence soars, and epic adventures become life-long memories. Kids living with IBD can just be kids; they can have fun without the fear of judgment.

Camp Oasis welcomes children with medically stable Crohn's disease or ulcerative colitis, in grades 2-12. The programs’ offer sleep-away experiences across the country as well as our CampOasis@Home virtual sessions.
